ENGLISH LANGUAGE TEACHING RESOURCES

[www.britishcouncil.org](http://www.britishcouncil.org)

## INTRODUCTION

This bibliography is one of a series produced by the British Council to help English Language Teaching (ELT) professionals select resources which can be used in the classroom, for self-access centres or libraries. There are lists for general ELT and for English for Academic Purposes (EAP) and they are broken down by approximate value in pounds sterling, for example; ELT 10,000 (has resources which total £10,000), ELT 5000 (has resources which total £5000) and so on.

You can use this bibliography in a number of ways; to start a new collection, to review and refresh your existing resources, or to create an exhibition for an event.

Each bibliography is divided into sections including; learner levels, skill types, readers, dictionaries, resource material for teachers and exams. The resources have been selected by an external consultancy; River Rock Bibliographic Consultants, who selected a range of books, software and packages and they have also been quality reviewed by a group of British Council English Language teachers.

Each item has bibliographic information to help you with selection and ordering:
